

BENEFITS OF OTS DRAWER SYSTEMS

#1 – Australian Made & Owned

Made in Australia – Quality Construction – Excellent Customer Service

We are proud to use and endorse Australian products whenever possible

Strongly committed to using environmentally sustainable work practices and products

#2 - Custom Built

All of our products are custom built to the highest standard of workmanship

If a Standard Drawer System doesn't suit your needs, then chat to one of our friendly staff

who can help you design a system just for your requirements

#3 – Alloy Drawer Sides

Light Weight

Durable System

#4 – Polyethylene Runners

Low Maintenance

No bearings to fail in off road conditions

Light Weight

Maximum Width of Drawer

#5 – Side Wings Included

No Hidden Fees

Side wings removable to gain extra storage

#6– Heavy Duty Carpet Finish

Gives a durable surface that looks neat & tidy

#7 – Fully Remove System within 15-30 minutes

Quick & easy to be removed when total boot space is required

Can be easily removed and installed by one-two people

#8 – Maximum Storage Space

The Poly runners allow for wider drawers by an average of 45mm per drawer compared to drawer systems with bearing runners

This allows for more efficient use of available storage space – every bit counts!

#9 – Alloy Protection Strip

Protects the carpet edge for long term good looks and durability

#10 – Lockable Stainless Handles

For added Security to lock those valuable items
